KENTUCKY REPUBLICAN PLATFORM.

We are opposed to the free and unlimited currency of silver, believing that it would induce a country-wide financial panic. We believe in the use of the gold standard for coinage, provided always that dollar value is made precisely equivalent in dollars in the other countries.

We favor a tariff so regulated as to protect the interests of all classes of our citizens upon articles that may be successfully manufactured or produced in this country, thus insuring good wages to labor and a fair market for the products and in connection with this we favor the re-establishment of the doctrine of reciprocity.

We believe that such a system will destroy George's War, expand our markets, increase our abductions, renew our public confidence and mitigate to the rear the undue exertions now presenting concerning the currency. In view of the past financial history of the Democratic party, its devotion to the gold standard and its aversion to the free coinage of silver, we affirm that the Kentucky party can be more safely trusted to regulate for the financial system of the Nation.

We favor an American policy which will protect American and American interests in any part of the world at all hazards and will sympathize with struggling Re, white rather than ignorant minorities.

REV. FRED D. HALE.

The Majority Insisted on His Retaining His Pastorate.

Rev. Fred D. Hale, Pastor of the Owensboro Baptist Church who has been serving the church since he became a Catholic during the past week, resigned his position at his church yesterday night by stating that he understood that his resignation would be asked for, but he would then and there settle the question.

He asked that a vote be taken at once, and if a majority ruled he would tender his resignation at once.

Nineteen members signified that they thought Rev. Hale should resign, but the majority insisted on his retaining his Pastorate.

The master has given rise to much comment in religious circles.

The tunnel on the Short Line gave the K. C. fellows at Paris all the extra work they were looking for. They had upwards of fifty trains every day and Friday they handled eighty-four trains. Saturday they broke the K. C. record by handling without an accident ninety-two trains. When it is taken into consideration the small amount of sidetrack room there is at Paris, the work is simply phenomenal.

A NEW WITNESS

On Whose Testimony H. H. Holmes Can Be Hanged

Is Claimed to Have Been Discovered by the Chicago Police.

He Can Give the Terrificants of the Different Murders Committed by Holmes, and Claims He Can Show Where the Bodies are Located.

CHICAGO, July 30.—There is now little doubt that the Chicago police will convict H. H. Holmes alias Nudgett, alias Pratt, alias Gordon, now in the Philadelphia jail, of the murder of at least seven persons.

The name of the man who can hang Holmes is in their power. His name is Hatch, alias Bond, alias Mascot, and he is now serving a sentence of ten years in the penitentiary at Little Rock, Ark., for having stolen \$1,000 from a bank. He is serving his time in solitary confinement, and is a model inmate. He is the only man who can tell of Holmes' crimes in a way that will bring forth evidence of Holmes' guilt. The mention of his name by the police Tuesdays last caused a general alarm, and a confession from Quinalan is almost assured, but will come too late, as Hatch is to be the state's witness. It has been arranged to request a pardon from the governor of Arkansas if he will give his testimony.

It is suspected that William Capps, of Fort Worth, Texas, gave the police of Chicago some valuable information concerning Hatch. In fact, it is difficult to conceive how anyone could be more reliable than Capps. He was engaged in prying up the fraudulent transactions of Holmes with regard to the property of the Williams girls. He did not know that the Williams girls were both dead and that he was offered sufficient proof to a civil court to secure a setting aside of the title of their property (now in the name of Pietzel and his wife) so that the heirs of the two girls could be given back to them. He claims his heart lies on the right side. He thinks the right lung is gone and that the heart dropped over to fill the vacant space.

organized by all successful speculators operate on a regular system.

It is well known fact that the men of the United States who systematically train Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$100,000.

It is also a fact that those who make the largest profits from comparatively small investments are those who have the best knowledge of the market and understand systematic trading.

Our plan is to risk the minimum invested on any article, but cover with sales, so that if the market goes up or falls it brings a steady profit that piles up enormous in a short time.
